Instructions for Authors

2024/December/27

1. [Publication policy] Organ Biology, the official journal of the Japan Society for Organ Preservation and Biology (JSOPB) is a peer-reviewed online journal published on J-STAGE. It covers research on preserving and improving organ, tissue, and cell function. The format categories are original papers, reviews, and others (Commentary, Voice from Members, Meeting Report, Book Review, etc.).
2. [Provision] Manuscripts must not be published or must not be submitted to another journal. The criteria for duplicate submissions follow the International Committee of Medical Journal Editors' Recommendation, III.D. Overlapping Publications.
3. [Author attribute] The first and responsible authors of the submitted manuscript must be members of JSOPB. This does not apply to the manuscripts the Editorial Board has asked for contribution.
4. [Research compliance] Ensure that the research methods comply with the legal and ethical standards in force at the time of the research and state this clearly in the manuscript. The legal and ethical standards include ethical guidelines for research with human subjects and human materials, embryo manipulation, animal experiments, gene modification, and radioisotope experiments.
5. [Conflict of interest] Disclose conflicts of interest and, if necessary, submit a conflict-of-interest self-assessment form.
6. [Submission] Manuscripts (text, tables, and figures) must be in Japanese or English and sent by e-mail to the Editorial Board (address below) The manuscript must follow the 'Writing and Submission Instructions' below.
7. [Copyright] The copyright of the articles published in Organ Biology belongs to JSOPB. Copyright status is Creative Commons CC BY-NC-SA 4.0 (Non-Commercial-Share Alike 4.0). Reproduction for commercial purposes must follow the 'Regulations for Reproduction of Papers and Articles Published in Organ Biology'(see below).
8. [Decision for publication] The Editorial Board decides the acceptance or rejection of manuscripts. The Editorial Board may request revisions, deletions, or additions to the manuscript.
9. [Publication] The accepted manuscripts of the same categories are published in the order of the date of acceptance.

How to write and submit manuscripts

1. Please complete and attach the Organ Biology Cover Letter at the time of submission. Depending on the content, please indicate the type of manuscript: original article, review article, or others (Commentary, Voice from Members, Meeting Report, Book Review, etc.).
2. On the first page of the manuscript, please write the title, authors' names, affiliations, and contact e-mail address of the correspondence.
3. For original articles, reviews, and commentaries, please accompany a 100-word abstract and keywords (up to 5 words) in English.
4. For original articles, please write in the following order: abstract, introduction, materials and methods, results, discussion, and references. For reviews and other articles, please follow the style of previously published articles.
5. Please submit clear figures and photographs.
6. When you wish to reproduce figures, photographs, or tables that have already been published, please follow the instructions of the publisher that holds the copyright.
7. Please indicate the references in the text by the numbers in square brackets in the citing order. Please provide the list of bibliographic information in the ICMEJE format at the end of the text (ICMEJE format is the format used by PubMed).

How to describe references (*Italic* optional)

[Original articles, Review articles]

1. Author1 AB, Author2 CD, Author3 EF, et al. Title of the article. Abbreviated journal name Year;Vol*(Issue No)*:Page-Page *DOI:*

[Book chapter]

2. Author1 AB, Author2 CD, Author3 EF, et al. Title of the chapter. In Book title. Eds by Editor A, Editor B. Publisher (Publisher location), Year;Vol:Page-Page *DOI:*****

[Website]

3. Website publisher. Title of the site. URL accessed on year/month(spell)/day

Regulations for Reproduction of Papers and Articles Published in Organ Biology

The copyright of articles published in Organ Biology, the Official Journal of the Japan Society for Organ Preservation and Biology (JSOPB) is reserved by the JSOPB under the agreement made with J-STAGE. However, this does not preclude the reproduction of the content. If you wish to reprint an article, please follow the procedure below.

1. When you reproduce parts of articles such as written figures or tables that were first published by Organ Biology, please indicate the source as a reference (CC-BY BY-NC-SA 4.0 as defined in the Creative Commons). However, when the figures or tables were originally published in another journal before being reproduced in Organ Biology, please follow the rules of the journal publisher of the first publication.
2. If the counterpart publisher requests permission to reprint the published materials, a letter of permission will be issued by the Organ Biology Editorial Board. The request can be made by either the author or the publisher.
3. For commercial use of written figures or tables that were first published by Organ Biology in the media such as websites, promotional brochures, etc.), please pay the following royalties to the Japanese Society for Organ Preservation and Biology (JSOPB).

   Reproduction in hardcopies (e.g. brochures, booklets) JPY 60,000 (excluding tax)

   Reproduction in the internet websites or social networking service (SNS) JPY 100,000 (excluding tax)
4. When submitting a Japanese article published in Organ Biology to an international journal, with the translation clearly identified as the original source, please observe the following various points. The author(s) will be responsible for deciding whether the article is a translation or not.
   1) The purpose of the submission is to provide information to readers who do not comprehend Japanese.
   2) Please state in the footnotes that the article is a reprint. This will also protect the author(s) in the event of a claim of precedence of content.
   3) Please submit after the official publication date of the article in Organ Biology.
   4) Please follow the instructions of the journal to which author(s) intends to submit.

   The Japan Society for Organ Preservation and Biology (JSOPB)
