

Instructions for Authors

Aims and scope

Journal of Analytical Bio-Science, official journal of the Society of Analytical Bio-Science, publishes fully refereed papers of international authorship that contribute to existing knowledge in all fields of studies relating to the development of biotechnology with special emphasis on analytical methods used for evaluating biological specimens. It also publishes papers on immunology, genetics, clinical chemistry, hematology, nutrition, pathology (including histochemistry), bacteriology, urinalysis, laboratory automation, computing and management where they have both biotechnological and clinical relevance.

Submitted manuscripts should not previously have been published either in whole or in part, in any language, except in the form of an abstract for a scientific meeting.

In addition to full manuscripts (Original Articles), the journal features Review Articles, Brief Notes, Technical Reports and Notes. Prospective authors should consult recent issues of the journal to determine the appropriate category and style for their manuscript.

Animal and human research

Research involving humans must be carried out in accordance with ethical standards of the responsible committee (institutional or regional) or with the Helsinki Declaration. Studies involving animal experimentation must include a statement of compliance with the guidelines of the author's institution.

Review process

The following is the editorial workflow that every manuscript submitted to the journal undergoes during the course of the peer-review process. Manuscripts will be reviewed anonymously by two referees. The reviewers' comments will be sent to the first author by the Editor-in-Chief together with a decision regarding acceptability for publication. All accepted manuscripts will be published in accordance with the date of acceptance. Any revised manuscript will retain its original date of receipt only if it is resubmitted within two months of the date of the letter reporting the editorial decision. The entire editorial workflow is performed using the online Manuscript Tracking System.

Manuscript forms and styles

Manuscripts should be in English, double-spaced, typed on one side of a sheet of A4 paper with 2.5 cm margins on both sides. Start each of the following sections on a new page: title page, Summary (up to 150 words), 1. Introduction, 2. Materials and methods, 3. Results, 4. Discussion, Conflicts of interest, Acknowledgements, References, each Table, and Figure legends. Number pages in the center of the bottom beginning with the title page.

Original Articles and Reviews should not exceed 20 pages and have no more than 6 figures or tables. Brief Notes should not exceed 10 pages and have no more than 3 figures or tables. Technical Reports and Notes should not exceed 16 pages and have no more than 6 figures or tables. The journal publishes Original Articles, Reviews, Technical Reports and Notes which must be 6 printed pages or less and Brief Notes which must be 4 printed pages or less, in principle. The authors will be charged for additional pages, in the event of the editors accepting a longer manuscript.

Title page

Indicate: (a) category of the manuscript; (b) title; (c) each author's first name and last name; (d) name and address of department (s) in which the research was conducted; (e) 3 to 5 key words; and (f) name and address of corresponding author. Telephone and facsimile numbers and the E-mail address of the corresponding author must be provided.

Description of Text

The Standard International System (SI) units are preferred, and acceptable abbreviations of units are given in.

All figures (including photographs) and tables should be numbered with consecutive Arabic numerals, and have descriptive captions. Use initial capitals and lower case letters. Keep figures and tables separate from the text but indicate an approximate position for each in the margin in red ink. Figures and tables should be no larger than 18 cm in width and 25.5 cm in length. Before submission, verify that symbols and lettering will be legible when the figure is reduced.

References should be cited in the text using consecutive superior Arabic numerals. The full list should be collected and typed at the end of the paper in numerical order in the following manner:

1. Standard Journal Article: List all authors when 6 or less; for more than 6, list first 3 and add "et al." Stone JA and Soldin SJ: Improved liquid chromatographic immunoassay of digoxin in serum. *Clin Chem*, 34: 2547-2551, 1989.

"ibid" may not be used.

2. Chapter in book: Edited by CA. Burtis and ER. Ashwood: FR. Elevitch: *Computers in the Clinical Laboratory, Tietz Textbook of Clinical Chemistry*, 2nd ed. 528-546, WS Saunders Company, USA, (1994)

3. A paper in Japanese: Asanuma K, Ariga T, Aida N, Miyasaka A, Nagai Y, Miyagawa T, Minowa M, Yoshida M, Tsuda M and Tatano T: A new method for simultaneous autoanalysis of plasma levels of lactic acid and pyruvic acid by means of the oxidase system [Jpn]. *J Anal Bio-Sci*, 8:16-24, 1985.

The first proofs are sent to the corresponding author, the second read by the editor. Accepted manuscripts will not be returned to the authors.

Original Articles, Reviews, Technical Reports and Notes up to 6 printed pages, as well as Brief Notes up to 4 printed pages, are free of charge. The page charge for each additional page in excess of these limits is 10,000 JPY (per page).

Submission

(1) Online submission:

Articles for publication should be submitted electronically to the journal website (at: <http://plaza.umin.ac.jp/~e-jabs/onlineSubmission.html>).

(2) Paper submission

Manuscript, the original and two copies, should be submitted to:

Department of Clinical Chemistry, School of Allied Health Science, Kitasato University
1-15-1 Kitasato, Minami-ku, Sagami-hara, Kanagawa 252-0373, Japan
Phone/Fax: +81-42-777-1755
seibutukgk@yahoo.co.jp

Indexing and abstracting

Journal of Analytical Bio-Science is indexed or abstracted by Chemical Abstract, Google Scholar and Index Copernicus. The 2009 Index Copernicus Value for Journal of Analytical Bio-Science is 4.34.

Editors

(1) Editors-in-Chief

Hiroshi Ihara, Department of Laboratory Medicine, Toho University Ohashi Medical Center, Tokyo

Yuzo Kayamori, Department of Clinical Chemistry & Laboratory Medicine, Kyushu University Hospital, Fukuoka

Kiyoshi Nakane, Editorial Office, Society of Analytical Bio-Science, Aichi

Akira Abe, Departement of Medical Technology, Gifu University of Medical Science, Gifu

(2) International Editorial Board

Srikumar Chakravarthi, MBBS, MD, MCAP (USA), FRSPH (UK), Department of Pathology, Faculty of Medicine, International Medical University, Kuala Lumpur, Malaysia

Bernard J Fernandes, MD, PhD, Professor, Department of Pathology and Laboratory Medicine, Mount Sinai Hospital and University of Toronto, Canada

Hapizah Mohd Nawawi, MD, PhD, Professor, Faculty of Medicine, Universiti Teknologi MARA, Malaysia

Kap No Lee, MD, PhD, Professor, Department of Laboratory Medicine, Korea University, Korea

Ina Susianti Timan, MD, PhD, Professor, Department of Clinical Pathology, Faculty of Medicine, University of Indonesia, Indonesia

Nisarath Oparattikul, MD, PhD, Associate Professor, Department of Clinical Pathology, Faculty of Medicine Siriraj Hospital, Mahidol University, Thailand

Ariel M Vergel de Dios, MD, PhD, FPSP, Department of Laboratory, University of Philippines, Philippines
